Allan Brown
Chief Operating Officer
Epistem Ltd

13th January 2014

Genedrive[®] overview

- **Rapid**
Results obtained in 1 hour enabling immediate treatment
- **Robust**
No moving parts, lightweight (just 560g)
- **Low voltage**
12V DC device allows battery pack operation
- **Inexpensive**
Unit and assay pricing highly competitive
- **Place anywhere**
Low resource settings, point-of-care
- **Simple to use**
Single button operation, minimal hands on time, all reagents supplied
- **Broad application**
Expanding portfolio of assays

Partnership/Collaboration

- Epistem are a molecular diagnostic product/technology development company
- Our expertise is in the design, development and manufacturing of diagnostic hardware and assays
- We aim to work closely with partners who are at the forefront of POCT and who best understand the needs of the patient and the clinician
- This helps us shape the overall design and positioning of our products
- Key to developing any diagnostic is access to clinically relevant samples, whether through use of banked or spiked material or direct access through field trials
- Understanding market trends and expectations
